AEA Recognizes Members for Training Commitment *Avionics Training Excellence Awards Presented to a Record 95 AEA Member Shops*

WASHINGTON, D.C., April 24, 2008 — The Aircraft Electronics Association announced the recipients of the annual Avionics Training Excellence Awards during today's official opening of the 51st annual AEA International Convention & Trade Show in Washington, D.C. The Avionics Training Excellence Awards recognize AEA members for their total commitment to training as evidenced by participation in AEA-approved training.

A total of 95 AEA member companies received the 2008 AEA Avionics Training Excellence Award during today's announcement. This is a 12 percent increase compared to last year, and it is the most members to date to receive the award, with many of the companies being first-time recipients.

Mike Adamson, vice president of member programs and education for AEA, said the membership's commitment to training is stronger than ever.

"We are seeing more and more member shops use AEA products as the cornerstone of their training programs," Adamson said. "The increased participation is impetus to continue developing and delivering relevant regulatory and technical training content for the general aviation aircraft electronics community."

Avionics Training Excellence awards were presented to:

Aero Charter, Chesterfield, Mo.
Aerocorp Avionic Solutions, Calgary, Alberta, Canada
Aerospace Instrument Support, Denton, Texas
Aertronics Inc., Billings, Mont.
Ahr Avionics Inc., San Antonio, Texas
Arapahoe Aero Avionics, Englewood, Colo.
Atlantic Aero Inc., Greensboro, N.C.
Aurora Avionics LLC, McGregor, Texas
Aviation Institute of Maintenance, Indianapolis, Ind.
Aviation Institute of Maintenance, Kansas City, Mo.
Avionics West dba Avwest Atlanta, Kennesaw, Ga.
Banyan Air Service, Fort Lauderdale, Fla.
Bloomington Avionics, Bloomington, Ill.
Boggs Avionics Inc., Pinehurst, N.C.
