

Part 23/25 ADS-B Installation Forum

March 8/9, 2016

AEA International Headquarters
3570 NE Ralph Powell Road
Lee's Summit, MO 64064

Agenda

The intent of this forum is to stimulate discussions and to identify barriers to design, certification and installation of ADS-B solutions. While there are foundational presentations that will be presented by both FAA and Industry, the primary purpose of the forum is "discussion": please be prepared to discuss!

Tuesday March 8 (1:00 p.m. – 5:00 p.m.)

- Welcome and Introduction.
- Overview of FAA Equip 2020 initiative.
- Review of the changes contained in AC 20-165 B Airworthiness Approval of Automatic Dependent Surveillance - Broadcast (ADS-B) Out Systems
- Review of the changes contained in March 2, 2016 Memorandum addressing the Installation Approval for ADS-B OUT systems.
- Presentation on the research on pilot awareness of the ADS-B mandate.
- Industry discussion of Part 23 ADS-B installation and marketing challenges.
 - Propose recommendations
- Next steps for the Industry/OEM (Part 23).

Wednesday March 9 (9:00 a.m. – 4:00 p.m.)

- Welcome and Introduction.
- Overview/recap from Day 1.
- Overview of FAA Equip 2020 initiative.

- Review of approved ADS-B pairs and installation.
 - Service Bulletins
 - STCs
- Propose recommendations
 - Industry discussion of Part 25 ADS-B installation and marketing challenges.
 - Propose recommendations
 - Industry/OEM discussion of Part 25 incidental issues.
 - Proposed recommendations.
